

Grade 6-8

Health and Safety

April 2024

Title of the activity: Health and Safety

Classes involved: Grade 6-8

Month and year: April 2024

Teachers In charge: All class teachers

Description of the activity: A health and safety policy in school exists to protect children, staff and visitors from any possible hazards in the school campus. The primary function of any school provision is teaching and learning, but to do so safely is of paramount importance and time must be taken to construct rigorous health and safety measures. Children discussed on the topic Precautions to be taken during summer season to stay healthy!

Objective: Children will learn to take care of their health and stay hydrated especially during the summer season.

Learning Outcome:

- 1.To develop hygienic practices among students
2. To enhance dental hygiene by regular brushing and flossing
3. To provide guidelines on the importance of hand washing
4. To protect themselves from harmful effects of the sun's rays.
5. To make the children understand that personal hygiene is a vital practice

Skills involved:

1. Communication skill
2. Enthusiasm
3. Awareness on health and hygiene.
